EDUCATION

New York University

Bachelor's Degree in Computer Science and Data Science, Minor in Business Studies

September 2022 – May 2026

Coursework: Full stack Development, Software Development, Machine Learning, Artificial Intelligence, Database Systems, OOD/OOP, Algorithms, Operating Systems, Parallel Computing, Data Structures, Networks

EXPERIENCE

New York University | Title: Full Stack Software Engineer

April 2025 – Present

Skills: NextJS(TypeScript), Prisma, OAuth, GraphQL, MySQL, PHP, Agile, RAG, System Architecture

New York, NY

- Design, develop, and maintain scalable full-stack web applications serving the university community. Lead development of critical university portals: [Petition Portal](#), [Foreign Language Placement Exam Portal](#), [ULC Scheduler](#), [Advising Portal](#), etc.
- Build admin dashboards with real-time analytics; implement SSO authentication migration using MS Entra OAuth2; integrate conversational AI interfaces; develop automation tools for deployment and infrastructure

Scale AI (Outlier) | Title: Full Stack Software Engineer for AI Training

May 2024 – August 2024

Skills: Javascript, Python, AI Training, Algorithms, Software Engineering/Evaluation

New York, NY

- Conducted post training RLHF code reviews and evaluations, identifying reward hacking, alignment gaps, and reasoning failures to improve model reliability and behavioral consistency
- Analyzed code quality, maintainability, and adherence to real-world engineering standards, provided feedback on version control workflows, collaborative coding practices, and effective debugging techniques

Huaxi Securities Co., Ltd. | Title: Software Engineering Intern

June 2023 – August 2023

Skills: Unit Testing, Integration Testing, E2E Testing, Documentation

Chengdu, Sichuan

- Enhanced application reliability by implementing comprehensive End-to-End testing framework using Cypress, reducing production bugs by 40% and improving deployment confidence

SELECTED OPEN-SOURCE CONTRIBUTIONS

Inky | NextJS, Drizzle, XState, TipTap, Vitest

Ongoing

- A group scheduling tool designed to streamline coordination, minimize back-and-forth, and save time for teams
- Features: drag-to-paint time grid or predefined time block voting, with a live heatmap, custom intake forms, and Google OAuth for poll creators; Visit: inky.jasonl.us

PATH Live | React, Spring Boot, GTFS Realtime, Geolocation

Ongoing

- Built a full-stack real-time platform for tracking train departures in the Port Authority Trans-Hudson transit system
- Features: instant live departures, automatic nearest-station detection via geolocation, clean scan-first departure board UI, responsive mobile/desktop support, dark mode and more; Visit: path.jasonl.us

Lobster AI | NextJS, Vercel, Prisma ORM, MongoDB, Tailwind CSS, CI/CD

Ongoing

- Built production-ready AI SaaS platform with multi-modal capabilities (chat, code, music, image, video generation), implementing secure authentication and subscription management for scalable user growth
- Deployed on Vercel with automated CI/CD pipelines for seamless feature delivery
- Visit: lobster-ai.vercel.app/ | Repo: github.com/jsl1114/Lobster-AI

SKILLS

Languages	Java, JavaScript, TypeScript, Python, C, C++, Swift, SQL, $\LaTeX$
Frontend	React, NextJS, VueJS, Angular
Backend & APIs	REST API, GraphQL, Express.js, Spring Boot, Ruby on Rails, Auth (SAML, WSO2, OAuth, OIDC), Redis, Kafka, RabbitMQ
Databases & Cloud	RDBMS, PostgreSQL, MySQL, MongoDB, Prisma, ETL/ELT pipelines, AWS (EC2, S3, Lambda), GCP
DevOps & Testing	Docker, Kubernetes (K8s), CI/CD (Github Actions, Jenkins), Playwright, Cypress, Jest, Mocha, Linux (Ubuntu), Bash, Unix, Shell Scripting, Git, Github, Vim, Agile Development Methodologies
ML/AI	PyTorch, TensorFlow, OpenCV, NumPy, Pandas, Matplotlib, LangChain, GitHub Copilot, Claude

CERTIFICATE

FullStack Open | [certificate](#)

January 2023 – September 2023

- Completed an intensive 200+ hour program in modern full-stack development offered by University of Helsinki, mastering ReactJS, Node.js, GraphQL, REST API, Testing, Redux, CI/CD, Containers, SQL/NoSQL Databases
