EDUCATION

New York University

Bachelor of Science in Computer Science and Data Science, minor in Business Studies GPA:3.72/4.0

Coursework: Object Oriented Programming, Algorithms, Operating Systems, Parallel Computing, Data Structures, Applied Internet Technology (Full stack Development), Machine Learning, Artificial Intelligence, Natural Language Processing, Database Management Analysis, Calculus, Linear Algebra, Micro/Macroeconomics, Management

EXPERIENCE

New York University | Lead Full Stack Software Engineer April 2025 – Present

Skills: NextJS, Prisma ORM, GraphQL, MySQL, PHP, Agile, System Architecture

- Design, develop and maintain scalable full-stack web applications serving 40,000+ students using NextJS, Prisma ORM, GraphQL, MySQL, PHP, etc. Lead development of critical university portals: [Foreign Language Placement Exam Portal](#), [ULC Scheduler](#), [Advising Portal](#), [Petition Portal](#), etc.
- Spearhead agile development processes and cross-functional team collaboration, delivering 30% faster sprint iterations while maintaining high code quality standards through comprehensive testing and code reviews

Scale AI | AI Code Quality Engineer May 2024 – Present

Skills: Python, AI/ML Training, Data Structures, Algorithms, Software Engineering/Evaluation

- Execute comprehensive code review and optimization for AI training datasets, improving model accuracy by identifying and resolving critical software engineering anti-patterns
- Design and implement production-ready algorithms and data structures to solve complex computational challenges, ensuring optimal performance and maintainability

Huaxi Securities Co., Ltd. | Software Engineering Intern June 2023 – August 2023

Skills: Cypress, E2E Testing, Web Application, Documentation

- Enhanced application reliability by implementing comprehensive End-to-End (E2E) testing framework using Cypress, reducing production bugs by 40% and improving deployment confidence

OPEN-SOURCE CONTRIBUTIONS

Lobster AI | NextJS, Vercel, Prisma ORM, MongoDB, Tailwind CSS, CI/CD Ongoing

- Built production-ready AI SaaS platform with multi-modal capabilities (chat, code, music, image, video generation), implementing secure authentication and subscription management for scalable user growth
- Deployed on Vercel with automated CI/CD pipelines for seamless feature delivery
- Visit: lobster-ai.vercel.app/ | Repo: github.com/jsl1114/Lobster-AI

Missing Semester | HTML/CSS, Markdown, 5k+ stars on GitHub Ongoing

- Contributor of MIT's [Missing Semester](#), a student-run course that teaches practical computing skills often left out of traditional computer science curricula

SHell | C December 2024

- Engineered custom Linux shell implementation featuring advanced process management, signal handling, and I/O redirection capabilities and implemented core system functionalities including program execution, process lifecycle management, and built-in commands (`cd`, `exit`, `fg`). Repo: github.com/jsl1114/SHell

SKILLS

Languages	JavaScript, TypeScript, Python, Java, C, C++, HTML/CSS, SQL, $\text{\LaTeX}$, MATLAB, R, Swift
Web Development	ReactJS, NextJS, VueJS, REST API, TRPC, GraphQL, Express.js, Docker, Kubernetes (K8s), CI/CD (Github Actions, Jenkins), Vim, Kafka, RabbitMQ, Auth, JWT Tokens, Mocha, Jest
Databases & Cloud	PostgreSQL, MySQL, MongoDB, Prisma, AWS (EC2, S3, CloudFront), Google Cloud
Artificial Intelligence/ML	PyTorch, Tensor Flow, OpenCV, Numpy, Pandas, Mathplotlib
Software Tools	Bash, Valgrind, shell scripting, Git, Github, Agile

CERTIFICATES

FullStack Open | [certificate](#) January 2023 – September 2023

- Completed intensive 200+ hour program in modern full-stack development from University of Helsinki, mastering ReactJS, Node.js, GraphQL, and REST API design with 20+ hands-on project implementations
